

PORTABLE WATER PUMP

DWP20

Engine: Diesel Engine 170F, 4 strokes, 1 cylinder, air cooled diesel engine.

Max Output: 3.1KW (4.2HP)

Pump Head: 20M;

Pump Max Flow: 30CBM/Hr;

Weight: 44kgs

Size: 515*435*495mm

Type	4 strokes
Cylinder number	Single cylinder
Displacement	211 cc
Bore x stroke	86*70 mm
Fuel type	0# diesel
Fuel tank capacity	2.5 L
Fuel system	Direct Injection
Lubrication system	Forced lubrication
Engine oil tank capacity	0.75 L
Starting	Electric / Recoil Manual start
Ignition method	High pressure ignition
Fuel consumption	2.3 L/H
Pump type	Single stage centrifugal pump
Sealing system	Mechanical
Material of pump case	High strength aluminium alloy
Inlet Diameter	50 mm
Outlet Diameter	50 mm
Number of Outlets	1 piece
Suction time	≤15S
Priming system	Self-suction priming system

Maximum suction head	10 m
Maximum pump head	20 m
Maximum pump flow	500 L/Min (30 CBM/Hr)

PERFORMANCE CURVE
